

THE BIBLE AND FLYING SAUCERS, by Barry H. Downing, Ph.D. ((Science & Religion). Barry H. Downing comments upon certain historical records, such as the electromagnetic properties of the UFOs when compared to the "pillar of cloud" that lead and protected the Israelites during the Exodus. According to Downing, a UFO apparently lead the Israelites for 40 years, was in the area when the Red Sea was parted, apparently hovered over the water and possibly utilized an electromagnetic beam to divide the waters so the Israelites could pass-over dry land, with the dry land being dried by the beam of energy (Exodus 14: .24). As a possible double-convex object, the UFO apparently wrecked Pharach chariots, causing them to become "heavy" or weigh two or four times as much thru electromagnetic forces, crushing the chariots. This suggests that the UFO or "heavenly" being knew beforehand that Israel would be saved by the parting of the waters.

## SCOOP SNOOPS!!!!!!

LOST and FOUND DEPARTMENT! 'Lost' -- not just ONE missing sailor -- four of them! We all KNOW that the 'round-the-world' sailor, Donald Crowhurst is considered to be 'missing', presumed drowned --- but --- did you know that since JUNE 30, 1969, 3 OTHER BOATS have been found UNMANNED in the SAME AREA where Crowhurst's boat was found??? QUOTE: "It's rare to get reports like this in such a close area in such a vast ocean." BEST QUOTE: (London Weather Center said) "Although it seem remarkable that so many yacting mysteries could occur in the same area of the Atlantic within the space of a week or more, we have recorded no weather phenomena or gale force conditions which could account for it. You can take it from us: the weather is not to blame." ---- RAWTHER! ---- A LLOYD'S SPOKESMAN SAID: "IT IS RATHER ODD". BLIMEY!!!!!! ----- FOUND: ONE FAKE!!!!!! "The Smithsonian Institution has indicated that the notorious and mysterious 'ICE MAN' being exhibited by a Minnasota carnival man is a fake -- a thing of mere LATEX RUBBER AND HAIR." "Smithsonian press officer George Berklacy has been in contact with a CALIFORNIA WAX MUSEUM OWNER who said one of his employees, whose name he withheld, had WORKED ON THE ICE MAN, PLACING HAIR IN THE LATEX RUBBER BODY IN THE SPRING OF 1967."..... "It is difficult to believe, that Dr. Huevelmans could have been fooled so easily." They failed to mention fooling IVAN SANDERSON and ARGOSY...! AND millions of readers. ---- SOUND FISHY? ---- HAVE SOME MORE 'FISH' STORIES! "Marine creatures 10 times their NORMAL size reported by research submarine..." Ahh/SOO! EIGHT BLACKFISH 30FT. LONG --- They also saw a 'MEDUSSA' with tentacles 30 FT. LONG and FOUR inches thick! NORMAL SIZE FOR THE MEDUSSA: 3 ft....! MASSIVE FISH KILLS in the news lately....! (well, 30 ft. Medussa's eat a lot...) Reports have come from the GULF OF MEXICO, estimates that go as high as 100 MILLION to 200 MILLION fish alone in the GULF.... IN A 30 MILE AREA.... MASSIVE BIRD KILLS reported as thousands of large, sea-birds are dying along a 100 mile strip on the North Carolina Coast--- ANOTHER FISH KILL: AT VIRGINIA BEACH, VA. on APROX. SAME DATES ---- SEAGULLS dying here near St. Poto, DEAD BIRDS SHOW NO DEATH CAUSE - pesticides and virus's being apparantly ruled out! DEATH DID NOT AFFECT OTHER LAND TYPES OF BIRDS --- JUST SEA TYPES..... FISH and BIRDS just are NOT as TOUGH AS CATERPILLARS IN ITALY..! "Troops using FLAME THROWERS and NAPALM FAILED to exterminate THOUSANDS of caterpillars infesting the rich vineyards".... TOUGH? WELLLLL --- NOT AS TOUGH AS HUNGRY MOTHS! In New Jersey state officials say that RATTLESNAKES and COPPERHEADS are swarming into the OPEN FROM THEIR MOUNTAIN LAIRS BECAUSE A PLAGUE OF "GYPSY MOTHS" have stripped away their leafy hiding places..! A 100 ACRE LAIR, KNOWN as "snakes Den" has been opened to heady daylight by the moth's defoliation! (You just never know what a HUNGRY GYPSY CAN DO THESEDAYS..!) .....THERE'S A HOT TIME GOING ON IN CLIFTON, TENNESSEE..... FLAMES OF FIRE ARE FLICKING UP OUT OF THE GROUND ON PERRY DAVIS'S FARM ----"BLAZES WILL JUMP OUT OF THE GROUND FOR FOUR OR FIVE INCHES" TWO PERSONS INJURED SO FAR.... CAUSE: (?) "Underground spontaneous combustion of stores of charcoal..." (which sounds normal until you read further!) "... The charcoal - if that is the cause of the fire- is believed to come from a pig iron furnace BURIED BY EARTH KICKED UP BY THE SHELLING OF A UNION GUNBOAT FROM THE NEARBY TENNESSEE RIVER MORE THAN 100 YEARS AGO"..... Looks like the inhabitants had better start learning to FIREWALK ---- if they want to live there..! FREAKS COME AND FREAKS GO ..... Here is one 'FREAK' that did some damage! "Freak tornado touches down"..... Ummm! It tipped over a number of tool sheds, small buildings and a camping trailer, removed one or two roofs, upset boats and docks in a small area of the lake"..... WHAT is so freakish about a tornado doing all that???? According to the weather bureau THERE WERE NO WINDS OR OTHER WEATHER CONDITIONS THAT EXISTED TO FORECAST A TORNADO! -----Guess I'll file it under FREAKS, FRAUDS, AND FLUKES.....!

"AN INFORMED PUBLIC WILL NOT PANIC"

## EDITORIAL COMMENTS

"Fear, we presume, is a useful emotion. Nature has provided us, as well as the lower animals, with it so that our senses may become more alert and our consciousness quickened for the struggle with danger. When we suppress our fears into our subconsciousness, we pervert the emotion. Not only do we then lose our nerve, but in extreme cases lose our consciousness. The individual losing his nerve tends more and more to act in his short-term self-interest." (Wells Quarterly - July '69).

There has, of late, been a miserable trend among some UFO research groups to 'give up the ghost' - literally. Upon realization that ufology was leading them into avenues of research which previously had been considered 'taboo', namely so-called 'poltergeist phenomenon', 'ghostly visitations', and paranormal situations, some 'stout-hearted' investigators instead of facing the problem squarely ----- sanely and calmly ---- ran.

They still quack on and on concerning 'metallic objects', radar blips, landing gear impressions on the ground, etc. POSITIVELY, these type of reports exist. And, equally as POSITIVE, are the statements of the witnesses, observers and reporters of PARANORMAL happenings directly involved with the same said LANDING or 'fly-over'. HOW CAN ANY INVESTIGATOR (WHO ALSO CALLS HIMSELF A 'RESEARCHER') concentrate on ONLY the PHYSICAL aspects ----- when the PSYCHIC aspects are still standing there, refusing to be ignored, and refusing to be swept under the nearest rug?

To be considered an INVESTIGATOR, one has to be just that. One has to have the courage to actually investigate a situation; whether or not he personally believes what event he is researching - is completely unnecessary. HIS opinions matter not ---- EVIDENCE DOES!

Some researchers say: "How can you prove a 'ghost'?" "How can you prove a 'Venusian Space Brother' who seemingly flits between being MATERIAL and physical - to completely 'breaking up' and disappearing before your eyes?"

Scoop now addresses it's next remarks to those weak-kneed 'researchers' who want PROOF. IF you cannot PROVE that something EXISTS ----- Let us PROVE that it does NOT exist. Ask your reliable witnesses to a contact (mental-type) WHAT did they see, hear, feel, experience. They will tell you over and over the same story. What happened to THEM is quite real. They do not consciously LIE to you. They tell you exactly what they FEEL occurred. However, you say, because YOU cannot see, feel, hear or smell what THEY did --- THEY must be liars. How small can a mind be?

So-- keep on trying to PROVE that these 'ghostly apparitions' do NOT exist -- simply by ignoring the reports, or telling the witnesses that they are lying. But- we can make a safe bet: that the more you try to suppress the truth ----- the more truth will emerge! GO ON THIS PREMISE: IF YOU CANNOT PROVE WHAT IT IS - LET US TRY TO REALLY PROVE WHAT IT IS NOT.....  
If it is NOT 'material' ---- what is it? If it is NOT physical -- what is it?  
If it appears to have NO BODY -- what DOES it have? And - WHO is behind it all ????

LOS ANGELES, CALIFORNIA - JUNE 9, 1969: "The Power to Transmit Thoughts" (AP) - Evidence that the human body may serve as the antenna and generate the power needed to transmit thoughts over thousands of miles was reported by both Russian and American scientists.

Dr. I. M. Kogan, of the Popov Institute for the study of Radio Electronics and Communications in Moscow, said conclusions based on 1966-67 experiments indicate thoughts may be conveyed by extremely long electromagnetic waves with crests ranging from 16 to 600 miles apart. "Telepathy via electromagnetic field is possible in theory over any distance." Kogan said in a paper given at a symposium on ESP, sponsored by the extension department of the University of California at Los Angeles. He said that the idea of telepathic wavelengths being measured in miles rather than the fractions of inches of some radio waves was an assumption based on mathematical calculations... At the University of California symposium, Dr. Thelma Moss, assistant Prof. of medical psychology at UCLA discussed findings, "very similar to those of Dr. Kogan" and said, "space scientists both here and in Russia are very interested in ESP as a way of keeping in touch with astronauts in case of electronic communications breakdown."... SCOOPNOTE: We find the above data quite relevant in view of the 'mental contact' cases via 'telepathy' that are being reported recently.....

REPORT FROM CHILE - FEB. 9, 1969 - CHILLAN, CHILE - A high town official, Mr. Emiliano Escalona and his friend, Professor Arturo Sepulveda, while on holidays with their families, stopped overnight at "Las Francas," the famous thermal water place of Chillan. They left their cars near the place where they slept. In the early hours of last Sunday, Mrs. Escalona woke up and heard the motor of their car running... then she heard the motor of their friend's car running, too. Finally she woke both men, and armed with guns, they went to look what was happening. But the cars were not there.

They had been enigmatically moved about 50 m. WITHOUT LEAVING ANY TRACE OF THE WHEELS ON THE GRASS. While examining strange paint on the cars they were startled by a kind of explosion and a blinding light. A huge silver ball rose over the nearby mountains. It is not certain that it was a UFO, but the strange things, that the motors of both cars were found running, while the batteries were disconnected. This case was confirmed the next day over the Argentine Broadcasting.

CAYMAN ISLANDS - FEB. 27, '69 (written by the Editor of the CAYMANIAN PRESS - W. D. Bodden) -- "If I had been asked the question "Do you believe in flying saucers?" last week I'd have laughed at them and said "No!" But - ask me NOW and you'll get a very strong affirmative! What made me change my mind? A personal sighting of a UFO made me a believer!... On the evening of the 24th. I dropped in at the Lobster Pot Restaurant on the seafront of Whitehall Bay... Among those present were Errol Bush, Jose Royes, Sonny-boy Bodden, Luis Cruz, Esterly Tibbetts and Noel Spencer-Barnes.

After talking idly for a few minutes, Jose pointed out a light in the sky rounding the point where Pageant Beach Hotel is...I glanced at my watch and noted the time to be 7:10 PM and then stared back out to sea at the strange glowing object. Somebody ran and fetched some binoculars and we all examined the light through these. The consensus of opinion was that it was SAUCER-SHAPED, glowing, with a steady, though not brilliant light. The light seemed to be stronger at the top of the 'saucer',... to be pulsating slightly.

The UFO, as we now determined it, proceeded slowly across the sky, stopping and hovering...we immediately discarded the idea of it being a star...then for a few minutes it disappeared, only to reappear again obviously having passed behind a small cloud. When it reappeared it threw a glow against the clouds directly behind it...

Cruz, "CAL'S" pilot, estimated the object to be about 3 to 4 miles offshore, at 3,000 ft. and travelling at about 25 MPH... Conversation turned up the information that Jose had seen the same object three times previously, once at South Sound, and twice at the airport. The LACSA people present also told of a sighting of a similar object by Capt. Victory while flying the BAC1-11 jet to Miami...The Capt. even pointed out to the passengers this strange glowing thing keeping pace with the aircraft. A similar object was sighted at San Jose Airport in Costa Rica according to Jose..."

WATCH OUT !!! - "Aliens using Moon as Base" ... Alien beings, using the moon for a flying saucer base, are warning us to watch our step in space. If we try to colonize the moon, these outer space intelligences will stop us... That's the opinion of two leading members of the Congress of Scientific Ufologists... "If we land on the moon, there will be repercussions on earth - earthquakes, powerfailures," Timothy Green Beckley, president of the Interplanetary News Service of New Brunswick, N.J. said earlier in the day at the Daniel Boone Hotel. Beckley said he has been in touch with several "contactees", people who claim to have carried on communication with alien life. These contactees have kept him informed of the activities of their extra-terrestrial friends, he said...

SOURCE: "SUNDAY GAZETTE-MAIL", CHARLESTON, WEST VIRGINIA - JUNE 22, 1969 -

SCOOPNOTE: Well, Fellas, where are all the catastrophic events? We landed on the moon... This is a typical example of the 'messages' being received by the contactee. The very strange part of the whole affair is this: For many years, in some cases, 'messages' have been recieved that bear fruit. What the message predicted-- came on with a bang - it became a habit to automatically BELIEVE what was predicted. THEN - somebody lowered the boom! I can show you case after case where the predicted event did NOT come off. It not only shocked the contactee - but the general believer in such messages. The contactee felt he was telling the truth, he did not consciously set out to lie.... I feel that the TRUTH lies in the fact that the CONTACTEE WAS LIED TO..... The purpose? -- To discredit/build up a belief --- than complete chaos... End result? Broken faith..... The contactee WAS sincere----- His 'message-giver' was not.....

FLORIDA REPORT - MAY 16, '69 - SARASOTA - Mrs. June Bartholomew, Director of the ScoopOffice in her area reports that the sighting of an unidentified object created quite a stir! A Brookside Junior High instructor and 12 members of his Geological Observer's Club reported sighting what might have been a 'flying saucer' Tuesday night. The report came from George Wagner, advisor for the club. He said at 9:35 PM, Mike Warne, president of the club, saw what appeared to be a planet while using the club's four-inch telescope. The object showed a disc-like shape through the scope, but moved rapidly from the SE to the NW part of the sky, making Wagner and the club members think that it was perhaps a satellite in a polar orbit.

Further observations revealed, however, that the object stopped many times and TWICE made full circles in the sky. The height of the object was estimated at 150 MILES. ( a little too hightfor stunt flying airplanes! ).....

CEDAR RAPIDS, IOWA - JUNE 6, 1969 - Federal Aviation Administration (FAA) officials in the midwest received a rash of reports of sightings of Unidentified Flying Objects Thursday evening. Officials at the Cedar Rapids Airport said three persons in the Airport coffee shop reported seeing a BLUE, CIRCULAR, object with NO wings or indication of a propulsion system streaking east to west above the Airport runway at an altitude of less than 1,000 feet.

They said it maintained it's altitude until it was out of sight. The three, a private pilot, a teen-ager, and a woman, estimated the speed to be between 300-400 miles per hour. The sighting was at 5:55 PM. FAA officers said similar sightings were reported to them by a Washington, Ia. man about 5 PM and a Tipton golfer at about 6 PM. Officials said other reports of similar sightings had come from Burlington, Des Moines, Omaha, Nebraska, and Kansas City, Mo. Thursday night. Usually the witnesses were described as "sincere". In Des Moines, Weather Bureau officials said they received about 6 calls, all describing the same object.

CAPE CANAVERAL, FLORIDA - JUNE 26, 1969 - Unexplained green and white lights, termed "cosmic phenomena" by the US Coast Guard, were reported over the Atlantic Ocean from Port Canaveral to West Palm Beach Wednesday night. Coast Guard utility boats had sped to the rescue from Fort Pierce and Port Canaveral at the first report of a "distress signal" received from sheriff's deputies at Indialantic and a civilian at Sebastian. The flare was estimated to be about 8 miles at sea. Thursday morning Coast Guard spokesman reported the rescue search was discontinued and the flare and others like it were ascribed to "cosmic phenomena". Some lights were seen inland, reportedly near Jacksonville... The lights were "green or white" depending from which angle you saw them and resembled somewhat a meteorite the Coast Guard reported. According to the Coast Guardspokesman, who disclaimed the idea of unidentified flying objects, the cause of the flashes would be in the weatherman's province, not theirs. Patrick Air Force Base weathermen stated they had no knowledge of lights and doubted if weather conditions could cause them... Dr. David D. Woodbridge, professor of physics and space technology at Florida Institute of Technology, said one possible explanation of the lights would be "an electric glow from charges in the air." Woodbridge could think of "no meteorological cause," considering Wednesday's clear weather.....

SPACE AGE MAY NEED "ASTRO-THEOLOGY"

(Reprinted from: "ARIZONA REPUBLIC" - PHOENIX, ARIZONA - May 25, 1969)

(Written by the REPUBLIC's Religion Editor, Marie H. Walling)

Heaven was above the firmament, or the arch of the world's sky. Limbo, to which unbaptized babies were consigned, was, in the words of one poet, "the wind that blows between the worlds." Today, men pierce the firmament with telescopes and other scientific devices and have not found heaven. Today's scientists declare there is no wind in space. What lies beyond the vast concept men call space?

... Not that infinity is an alien term to science. Mathematicians use it as a component daily in computing equations with great reliability. But as Gerard Kuiper, director of the lunar and planetary lab at University of Arizona acknowledged, infinity is a metaphysical concept that man's present consciousness cannot grasp. To Dr. Kuiper and many others, space is actually curved, endlessly turning back on itself in varying curves... At least as puzzling a dilemma is the question: Does intelligent life exist on other planets, or is the human enterprise unique to earth?

Some churchmen say the question requires a new "astro-theology" or, as the renowned astronomer Harlow Shapley put it: "In (our) thoughtful search for the Ultimate, let us trust that (we) get glimpses of a Stellar Theology." Chestnut declared, "If you say God is not in the (creation) picture, then I would say there are probably millions of planets containing life. But, with God in the picture, the question is: What is God's purpose?" He said there is nothing in scripture to tell if intelligent life exists elsewhere as part of God's purpose. Dr. Bok and Dr. Kuiper agree it would be "silly" not to expect there is intelligent life on other planets, though perhaps not in our solar system. "It might be different," said Dr. Kuiper, "but life on earth has tremendous variety."

Dr. Shapley goes even further. In a complicated argument he estimates, "on the basis of sampling," that there are more than 100,000 million billion stars in the universe, each capable of sustaining life, and many with planetary systems like our sun's. "The fact that life exists on this undistinguished planet and arose here naturally is by itself nearly enough assurance that life is a cosmoswide phenomenon."

... Does this shake man's "religious elitism" and his belief that earth's men alone are the children of God? Shapley himself says: "A ONE-PLANET DEITY HAS FOR ME VERY LITTLE APPEAL." But suppose intelligent life is found which has not received the Christian message of redemption? Is it incumbent on Christians to convert that life?

A Jesuit priest points out that space life must be the object of another providence, not the children of Adam, and "so not a part of our salvation history, which is that of a fallen and redeemed race."

But Chestnut declares that, if God made space man in his image, as he did Earth men, "they were given the same freedom of choice as we have here: the same events would have followed; and I would conclude they would have fallen, requiring redemption through Christ." However, he rejects the idea of missionary work among man's celestial neighbors, noting the high cost: "It would eat up all the money we need here to help relieve the condition of man. I cannot consider God would ask men on this planet to do this. If God made them, he has made provision for them in his own way. I don't know how he will (redeem them), but I am positive he will."

\*\*\*\*\*

... We get most of our impressions from the surroundings and through our five senses. Energy waves of certain frequencies and mechanical influences cause chemical and electric effects, which carry impulses to the conscious center in the brain. Man has two conscious centers - one in each brain hemisphere. Usually one is active and one is dormant. Science now interprets conscious awareness to be a direct emergent property of cerebral excitation. Certain subconscious impressions might be due to the activity of the dormant conscious center.

However, the human body and brain are premeated by a lot of chemical, electric, and electromagnetic phenomena, which are not connected to the conscious center. Most energy waves are of frequencies not in resonance with the 5 senses, and consequently they do not give any conscious impression. But they can be in resonance with other parts of the body and brain thus giving a tremendous physiological and psychic effect which cause man to act involuntarily as if he was controlled ( what he also might be). Let us therefore take a look at the very nature of resonance.

The frequency at which a given piece of matter will absorb energy waves is called 'resonance frequency'. The resonance frequency depends upon the composition, shape, and dimension of the material. Any piece of matter from stellar bodies to tiny atomic particles have resonance frequencies. One of the best known examples is that a sound wave of the proper resonance frequency can put a piano string in vibration. The BODINE SONIC PILEDRIVER developed by the C. L. Guild Construction Co., East Providence, R. I. has a sound wave generator at the top of the pile which sends sound waves along the path (length) of the pile being driven. The wave's frequency corresponds to the resonance frequency of the pile. The pile penetrates the soil rapidly and noiselessly. Resonance frequencies for atomic nuclei are in the radio region of the spectrum, in which wavelengths range from somewhat less than a meter to several hundred meters. For electrons the resonance frequencies are in the microwave region, with wavelengths from about one millimeter to a meter. Magnetic fields increase the resonance frequencies proportional to the intensity of the applied magnetic field. Thus intense magnetic fields can force the resonance frequencies of electrons up into the infrared region of the spectrum.

The human body and brain are EMITTERS of not only infrared heatwaves but the entire spectrum of light, ultraviolet rays, X-rays, radio waves, etc. Each part and organ has its distinct frequencies. The American scientist N. J. Stovell found the radio wave frequencies of the human brain to be different for each individual. Thus - by applying amplified energy waves at the proper resonance frequencies, any involuntary physiological, psychic, or motor reaction can be induced.

... The UFO's radiate these energies and use them for propulsion. One of them has a MASS ANNIHILATING EFFECT (not matter annihilation). Often it is supposed to be anti-gravity, what it is not. It is actually mass annihilation. All the kinds of energies with dynamic properties as well as particles of matter cannot move faster than the velocity of light. However, the new kinds of energies with non-dynamic properties can move much faster than the velocity of light. When these kinds of energies are used to annihilate the mass property of a spacecraft, it can move in right angles and with velocities much faster than that of light. Our calculations on the possible origin of the UFO's based on the limit set by the velocity of light are thus not at all adequate.

Today science is slowly being aware that there exist several kinds of energies of which we yet know practically nothing. The reason is that all the known kinds of energies are dynamic, and under certain conditions they are able to produce interference phenomena with each other and to produce dynamic resonance in particles of matter.

The dynamic resonance induce mechanical movements and/or oscillations in the particles, and these again may cause electric, electromagnetic and chemical reactions. These new kinds of energies are non-dynamic and do not produce dynamic resonance in particles. That is why we know so little about them. But they have an influence upon and are in resonance with other properties of matter than the dynamic property.

Some of these new kinds of energies are related to or similar to the kinds of energies known to parapsychologists as MENTAL, ETHERIC, OR PSYCHIC energies. All matter and especially living beings contain these kinds of energies. Our consciousness perceives the electric impulses from our 5 senses when they are hit by dynamic energies. Sometimes we become aware of an influence on NON-dynamic energies. This ability is called the 6TH. SENSE.

This comprises intuition, telepathy, etc. Especially animals are sensitive to NON-dynamic energies. As the Ufonauts have succeeded in harnessing NON-dynamic energies, they might use them to scan the human brain or induce other reactions in us, which make us act involuntarily when a UFO is in the vicinity.

AUTHOR'S ADDRESS: LANDSKRONAGADE 60 St. Th.  
DK 2100 — COPENHAGEN, DENMARK

SCOOPNOTE: To further identify the hallmarks of a 'mental contact' which, as stated above, could have been either intensified or caused by the usage of an 'energy' of some type, Hans has published these remarks:

"... Another way of contact is in the case where the people see the flying saucers and hear telepathic messages. A third way of contact is where the people do NOT see the flying saucers but just feel they are there because they hear a telepathic message... in all ways we find strong physiological and psychological implications."

"... The contactee seems to have a message, which is now the most important in their lives, and they must spread it or work according to it... Often they behave like people in a deep hypnotic trance, just they are conscious, everything they hear will be perceived like hypnotic suggestions meant personally for them. The many different and often contradictory opinions they hear might soon place them in a state of mental confusion, mental distress and the inability to concentrate..."

"... Sometimes the persons become fanatics or deeply religious. In a few cases the consequence is such a deep depression or desperation that the persons commit suicide or end up in asylums. Therefore you will understand that it is of the utmost importance that these persons are guarded carefully against negative or contradictory influences."

"... It is more difficult to establish the exact physiological implications. The strongest physiological implication seems to be in the NERVE SYSTEM (and consequently in the brain). The contactee themselves feel this very much... A more thorough examination should be done of contactees. A psychologist or hypnotizer might be of help..."

\*\*\*\*\*

FLYING SAUCERS MAY BE PSYCHIC PHENOMENA -

BRITISH AIR MARSHALL SUGGESTS - by JOHN A. KEEL

A surprising solution to the 'flying saucer' enigma has been expounded by both a top RAF spokesman in England and a new publication prepared for the Air Force Office of Scientific Research by the Library of Congress. The weight of the evidence, according to both of these sources, suggests that unidentified flying objects (UFO's) might actually be a variation on the age-old manifestations of psychic phenomena.

At a public lecture in London's Caxton Hall on May 3rd, RAF Air Marshal, Sir Victor Goddard KCCB, C.B.E., M.A., revealed that a very small percentage of reported UFO sightings are "truly unidentifiable". Of these, he offered the conclusion that "their materiality may be other than normally physical".

"While it may be that some operators of UFO's are normally the paraphysical denizens of a planet other than Earth," Sir Victor stated, "there is no logical need for this to be so. For, if the materiality of UFO's is paraphysical ( and consequently normally invisible ) UFO's could more plausibly be creations of an invisible world coincident with the space of our physical Earth planet, than the creations in the paraphysical realms of any other physical planet in the solar system."

The Air Marshal, who holds cabinet rank and was involved in the RAF's extensive UFO investigations from 1950-55, made it clear that he was not speaking officially and that these conclusions were his own and not necessarily those of the Royal Air Force. He cited cases in which mysterious objects seemed to appear and disappear suddenly in full view of reliable observers. "Their mass must be of a diaphanous ( very diffuse ) nature," he noted, "and their substance relatively aetheric ...The validity of these observations supports the 'paraphysical' assertion and makes the likelihood of UFO's being Earth-created greater than the likelihood of their creation on any other planet."

In recent years, UFO investigators have reported that "flying saucer" events are frequently accompanied by psychic-like manifestations including poltergeists (noisy "ghosts"), witnesses allegedly receiving telepathic messages, and the appearances of phantoms who could seemingly walk through walls and appear and disappear suddenly.

On the other hand, twenty years of UFO research and investigations have failed to produce any convincing evidence that UFOs are solid, manufactured objects and no evidence, tangible and physical, has ever been obtained.

In 1966, the U. S. Air Force Office of Scientific Research commissioned the Library of Congress to prepare an extensive bibliography of all UFO literature, both past and present. The resultant work is now available from the U. S. government Printing Office and contains some 1,700 entries, some dating back to the 19th century. Thousands of books and magazines were examined during the course of this project.

CONTINUED

In the preface to this "UFOs and RELATED SUBJECTS: AN ANNOTATED BIBLIOGRAPHY", Miss Lynn E. Catoe, the Senior Bibliographer, remarks: "A large part of the available UFO literature is closely linked with mysticism and the metaphysical. It deals with subjects like mental telepathy, automatic writing, and invisible entities as well as phenomena like poltergeist manifestations and 'possession'..... Many of the UFO reports now being published in the popular press recount alleged incidents that are strikingly similar to demoniac possession and psychic phenomena which have long been known to theologians and parapsychologists."

The bibliography is 400 pages long and includes sections dealing with literature on alleged Air Force suppression of UFO data, alleged involvement of the C.I.A. claims of official censorship, and other subjects dear to the heart of every "flying saucer" buff. A terse, objective summary of each entry is included. The volume also reviews ancient sighting records, with sections devoted to the considerable amount of pre-1947 UFO literature.

"An appreciable wave of 'flying saucer' literature appeared in the 1920's," Miss Catoe continues, "simultaneously with astronomers' growing interest in other planets...Each new wave of literature is a rediscovery of an old subject, for the tales of marvelous flying machines piloted by unearthly beings can be traced even beyond their mention in the ancient Hindu scriptures..."

In 1954, the late President Eisenhower told a press conference that "flying saucers exist only in the minds of the observers", implying that the objects were hallucinations. An RAF spokesman told the British press in April 1955, that the RAF's five-year UFO study was completed but that the full conclusions would be withheld from the public because they were "too controversial" and could not be fully proven to everyone's satisfaction.

Sir Victor Goddard stated, "It is essential that observers of all kinds should recognize that their observations are never entirely objective and that some observers are prone to intense subjectivity and hence to self-deception as profound as that which has always inhibited dialectical materialists from the apprehension of the truth."

Until recently the most popular theory for UFOs was that they are of inter-planetary origin, but now ufologists worldwide are considering more complex theories involving the fourth-dimension and a direct relationship between UFOs and psychic phenomena. Air Marshall Goddard's speech, coupled with the detailed correlations found in the Library of Congress bibliography, is likely to add impetus to this new line of thought. But the UFO field is apt to remain in confusion for years to come because, as Miss Catoe points out, "Points of view are taken up by factions, each of which seems convinced that its answer to the UFO riddle is the right and only one."

Dr. Edward U. Condon, the eminent physicist who headed the recent UFO study conducted by Colorado University under an Air Force contract, offered one solution in an address before the American Philosophical Society in Philadelphia in April.

"Perhaps we need a National Magic Agency (pronounced 'enema') to make a large and expensive study of all these matters, including the future scientific study of UFOs, if any," Dr. Condon said. ....

## BEYOND THE LIMITS OF FEEBLE MINDS

by BUFFORD RATLIFF

(Author's address: 184½ Central Ave. Ashland, Kentucky. Any correspondence to him should include a self-addressed and stamped envelope.)

DATED: JUNE 12, 1969... On this date I received a request from Joan Whritenour for data on the NUIC fossil...I must say that after a background check on her and reading an issue of SAUCER SCOOP, I feel she possesses the proper background in the field of ufology and that she approaches the subject with an open mind... As for myself, I've been interested in space travel and extra-terrestrial life for more than 20 years, as well as the field of ufology. At the start I took the center line, but in 1954 I had proof, and I became a firm believer, but keep things I personally knew to myself, but in 1956 I started to study written material and in December of 1968 I was once more involved in a major sighting. I then recalled my sighting of 1954 -- and I knew I had to do something. I felt that the people of the world should possibly know that UFO's were actual alien craft from places unknown...

Realizing the local news media was misprinting data that I had released to them, and in some cases, not printing the news at all, I saw that if anything was to be done, locally ufo-wise, it would be up to me.

I had often heard of people being injured by the alien craft both intentionally and accidentally - then in February of 1969, I made a sighting and I knew I had to do something - but what? The truth being that I received radiation burns from "two low flyers" and it did effect me physically. It also shook me up as I then realized that it wasn't a 'John Doe' in Texas that it happened to --- but me, Bufford Ratliff, from a small town, Catlettsburg, Ky., a steel worker!

After the physical effects went I had to make the move and on the 16th of March, 1969, I organized TUIC. Now, as of this date, I've made more than 26 separate UFO sightings, for a total of 43 plus. Finally, I was introduced to a magazine called BEYOND, and in the last week of December, 1968, read the JAN. 1969 issue, and within a few seconds I realized a hoax had been printed OR either the TRUTH - and ONE OF THE GREATEST MINDS OF THE 20th. CENTURY - had been found! Now ---- I know Brad Steiger was well qualified, so I figured that Mr. Gray might have been pulling a fast one, but I analyzed the contents of the article and decided I did have more than a ring of truth about it, and I felt it my public duty to investigate.

To cut history short, as is the practice, Mr. Melvin R. Gray and his wife were cutting grass back of their apartment and Mary saw a rock, and asked her husband to throw the rock out of the garden. This morning, June 1968, the sun was bright, and Mr. Gray upon picking up the rock found the light rays from the sun reflecting off the rock and into his eyes. Here, Mr. Gray, noticing the crystals through a minute opening, and that the rock had a peculiar shape, he decided not to throw the stone away but to give it an examination -- and Mr. Gray examined the stone closely for 6 months and before the end of November, 1968, he had contacted Brad Steiger of BEYOND, and through further research the story began to unfold so that by the last week of December, 1968, it appeared on the newsstand in Ashland, Ky. where I now live, and near the last of December, 1968, I stepped into the picture:

CONTINUED

Today, our research team (July 1969) has confirmed many of Mr. Gray's findings and has made many other discoveries. To date we have found 7 SMALL CREATURES ON or IN the fossil. 3 of the tiny creatures are APE-LIKE and are labeled as No. 2 type creatures and the second group are actually labeled as type No. 1 ----- and these are four strong and are very humanoid.

Now, back to group 2 -- the ape-like creatures could very well be humanoids in special space suits, also they are in a separate section of the spacecraft. Section B. While three of type one are in Section A... Section A and B of the spaceship are divided by a rim which centers the ship and apparently it is where the ship is fitted together. The type 2 occupants died in motion (action) as death hit them instantly - as they were trying to help the other who had been badly injured. The 4th. occupant (type 1) who was in Section B... looked as though he was holding on to something and looking out of a window. The balance of Type 1 occupants, the humanoids, are in Section A of the ship - 2 of these occupants are in a position, physically, which indicates they were preparing for a crash landing. The 3rd. is sitting in an apparent bucket-type seat with one arm slightly forward.

... Our research on the fossil is still under way at this time, as we are starting on the 2nd. years searching. There are only 5 possible places the spaceship could have originated from, and after many months of study, I believe the fossil to be the remains of a tiny 'flying saucer' or machine alien to the world we live in today. Mr. Gray and I took many measurements and finally were able to produce two different models of the craft, as it would have appeared or looked before the craft malfunctioned and it sent itself on a fiery one-way trip that ended in partial destruction of the space craft and killing at least 7 of the crew.

Thus, as it neared the earth's surface it began to overheat and burn - but - before the craft had been destroyed it made impact with the body of water and the water extinguished the fire and acted as a cooling agent... as the craft settled to the bottom, the sand, clay and muck, it became completely sealed and thus as time went on it became fossilized and there it was - left for lowly earth man to find and a permanent record to prove to all that somewhere in the vast universe - 400 million years ago - intelligent vertebrate life existed...

Now, before I close this article (July 12, 1969) -- approx. 6 weeks ago I received a report of a sighting of 'Little creatures' and they were the size of the occupants in the fossil. Here are the only 5 possible places where the craft and it's occupants could have come from:

- 1) Unexplored sections of Planet Earth's surface?
- 2) Unexplored subterranean civilizations inside the Planet Earth?
- 3) Underneath the vast bodies of water here on earth.
- 4) A planet in our solar system that was destroyed millions of years ago?
- 5) A planet that is outside our solar system that may have been destroyed or may still exist today?

I would like to take a SAUCER SCOOP POLL on this, the theories. Just write down your 1st. and 2nd. or 3rd. choices and please send it to me within 30 days after you read this article.

This fossil may be viewed by UFO GROUPS or by U. S. scientists... However, there are two UFO groups that I will not honor, as I have found them to be dishonest... ..

ONE REPORTER'S REMARKS ON THE 1969 CONVENTION by 'JEEP WILKENVICH'

(SCOOP wishes to preface this article by saying that the opinions expressed here are personal ones by 'Jeep'. It has always been our policy to present both sides of any controversial issue; should any of the other Convention-goers wish to present their views on the 'proceedings' these pages are always open to them.)

"About the UFO Congress, I must write you as I saw and heard it; and if I leave the impression of dissatisfaction, then it is of my intent. First of all, this Congress, I believe, is run and controlled by three groups. Though small, there is one from New York City, one from Cleveland and the other in West Va. The New York group would include Mr. Bob Morris, Mr. Moseley and Hohn J. Robinson and a Timothy Green Beckley of New Jersey. The Cleveland group includes Mr. Hayneck and Mr. Edward M. Biebel. The West Virginia group included Mr. Ralph Jarrett and Mr. Gray Barker.

... I feel the Chairman of this Congress, Mr. Hayneck, was more interested in parliamentary procedures and terminology of motions than he was getting around to the serious discussion of Aerial Phenomena. If it were not for two high lights of this Convention I would definitely stamp this Congress more of the parliamentary or political nature than of the Aerial Phenomena.

The first highlight to take shape was in a gentleman named Mr. Bufford Ratliff, who is director of an organization called "Tri-State Ufo Investigation Committee" with it's headquarters in Ashland, Ky. He had brought with him some strange looking fossils which I had the privilege of seeing them thoroughly before the Congress started... Being I didn't bring my microscope or a large magnifying glass with me, I did have a small size magnifying glass and I looked over this one particular fossil and you can actually make out the 'humanoids' on it in a crashed position and the circumference of the fossil gives indications of a 'saucer' that had crashed some long time ago on this earth. He even had a mold imprint taken of one hand of one of the 'humanoids' and I must add that it was the work of an expert to do it because the mold of the imprint itself, I would say, measured no more than three-eighths of an inch across and it even shows up a broken finger. These creatures probably stood no higher than 3 or 4 inches tall...

... Again, someone from the Congress played this down for the news reporters, because Mr. Ratliff stole the show, and members questioned him all day and well into the night... The SECOND HIGHLIGHT of the session was a taped speech by John A. Keel, and the reason for the tape was because he was supposed to give the opening address to the session but he said in his tape other business prevented him from coming in person. The tape ran approx. 40 minutes and it was of high quality, pertaining to what he talked about, highly intellectual, well given but bone-chilling. I might add that I didn't agree on most of what he said, but following his words and writings towards the solution of the UFO puzzle, I admire and respect this man very highly. I took notes as he went along and I hope I can reassemble the high points of his speech.

The most startling and disappointing thing was that he will no longer participate in UFO investigations and that he ceases to be a UFO investigator. He said that UFO's or 'flying saucers' do not exist -- but SOMETHING ELSE DOES.

CONTINUED

He went on to elaborate this point that SOMETHING ELSE EXISTS - that beings or "paraphysical" perceptions of immortal beings or INVISIBLE ANIMATION. Mr. Keel named Lord Downey and Sir Victor Goddard, both Air Marshals of Great Britain's Air-Force as they had both touched on this subject... One thingtSir Victor said was that you had to be a special kind of person to see these objects. Mounting evidence is that you have to be 'psychic' to receive 'contact' from these para-physical beings. MIB (Men in Black) are nothing but hallucinations or figments of the imagination OR also they could be 'phantasms'. The 'black car in recent times or the horse in years gone by. (This refers to the mode of transportation that the Men in Black always seem to utilize - a black Cadillac- or in the tales of the 'horsemen in black' seeming to frighten countless persons.)

He also said that 98% of cases from the year 1966 were too weird and not too helpful to reserch in general. Most of these cases reported by 'emotional hang-up'. Again, he says or speaks of these para-physical 'beings' as a VISUAL phenomena or as a 'manifestation' too hard for the average mind to understand, or to really comprehend. That they are in an invisible enviornment beyond our reach. He says that he has investigated over 600 cases personally, when he has actually talked to the people involved, and he now believes that only certain people can be 'contacted' by these 'beings'. He lists them in this order: RED INDIANS OF NORTH AND SOUTH AMERICA --- GYPSIES --- CATHOLICS or ANY HIGHLY RELIGIOUS PERSON. JEWS are almost zero to be contacted.

He goes on to say that the Indians know the real story behind everything but you must win their confidence, and if you do, you can learn a great deal... The Congress said that due to a shortage of time they were only going to run about 15 minutes of Mr. Keel's tape...(however, due to everyone wanting to hear it, it was presented with no cut-outs.)

One last item: This was the public session of the Congress. They showed all shop-worn slides of UFO's and pictures that anybody could have purchased at the local newsstand. Everything they showed was old, worn-out material and it was a shame that they charged the public \$1.50 to get in. The sad part: There is NO UNITY in the various UFO organizations, and nobody wants to share with the other, and to top it all off there is usually suspicion in abundance amongst all groups from all over the country. This opinon was shared by many and I can just see Dr. Condon sitting back and laughing at all UFO groups.

Well, Joan, you put in your publication what you see fit, it is your newsletter. Before this is all over with I will probably be censured right out of the Congress, but then I couldn't be losing too much..."

SCOOPNOTE: 'Jeep' would also like to acknowledge the help and kindness he received from Mr. John Robinson (Scoop Board member and Associate Editor of SAUCER NEWS.) He considers Mr. and Mrs. (Mary) Robinson to be among the few 'real people' there. Scoop wholeheartedly agrees! Jack and Mary know MORE about UFO's and UFO conventions than anyone else in the field today. They are both dedicated to TRUTH --- which in too many cases in the field, is an elusive substance. Again - we say that those who wish to reply to the above article - please feel free to do so. SCOOP will run your personal opinions also...

WOULD YOU BELIEVE ? by ARMAND A. LAPRADE (former Editor of PHENOMENA)  
(Reprinted from: SAUCERS, SPACE AND SCIENCE - 17 Shotland St. Ontario, Canada)

In 1921 pieces of white shining material (like bits of polished china) fell at Portland, Oregon, accompanied by chunks of ice.

In 1947, the Los Angeles Times carried a picture of Army Air Force officers examining a cylinder-like polished white china, which fell in Portland, Oregon .. accompanied by chunks of ice!!!

Ensenada, B.C., 1954 - Manuel Careaga was driving his car when he heard a noise like rocks being thrown against his windshield and rear window.

He stopped to investigate, and found no missile; but noted the glass was spotted. As he watched, in amazement, it began to melt... like snow!!!

Canada, 1954 - A Mrs. Gary May of Port Weller heard a sharp sound, like pinging. She and her husband both noticed there were blobs on the windshield resembling rain. Mrs. May stuck her hand outside to feel the glass and felt a sharp stinging pain in her thumb. She drew her hand in. On her thumb was a tiny burn-like mark!

Marysville, Ohio - 1954 - On October 1, two school teachers and 60 children - watched a cigar-shaped object hover over the Jerome Elementary School for awhile and then speed off, leaving a three-mile trail of strands like Angel Hair. The teachers gathered some of the webbed strands which had dropped on the trees, bushes, and lines along the road. They had trouble trying to break the strands. They said the material looked and felt like asbestos. Yet, tough as it was, the stuff would disappear within minutes after it had been touched.

When one of the strands was handled, it would curl into a ball, then disappear - or disintegrate. Their hands turned green from touching the silken strands, but it rinsed off easily. The green disappeared from all hands which were not rinsed in about a half hour. Some of the same was observed falling in Sicily that very same year!!!

\*\*\*\*\*

April, 1955 - Morris Steen, a mill-worker for the Cherokee Uranium Inc., in Colorado, found a small, highly radioactive METAL DISC in Lake Gulch, a mile south of Central City. It was two inches in diameter and a quarter inch thick. The disc baffled F.B.I. agents, mining men and geologists. O. L. Breitkruetz also complained to police that since last October, 1955, "bright discs" have been found in his front and back yards. They are about five inches in diameter, a 16th. of an inch thick, and weigh two ounces each. In the center is a slight depression. NO ONE seems to know where they came from!!!

Dana, California, April 8, 1953 - While driving through Shasta County, on the Cloud McArthur road, Mr. and Mrs. Milton Mayer encountered patches of greenish-blue snow. It was approximately ten feet in diameter. "We got out, and the first thing we noticed was that our skin tingled, our mouths puckered like we had alum on them and our eyes started to water. We drove away from there. We induced a Mr. Lewis Brewster and Shirley Dustman, who runs the Glenburn general store, to accompany us. Two boys, also followed. The blue-green snow was still there and it had a phosphorous glow when the car lights shone on it. They all experienced the same sensations as we had, when they got out of their cars..."

During the month of February, 1961, Mr. Richard Burger, a piano tuner, discovered a new hazard for his profession when a golf ball in an upright piano he was repairing in Cleveland, Tenn., blew up in his face when he lifted it out! R. Burger, who said he had no idea how long the ball had been in the piano, was treated at a hospital for face and eye injuries!

AN OPEN LETTER TO THE HOUSTON SPACE CENTER

FROM:

KENNETH LARSON: Director, West Coast Branch, Saucer Scoop

Mr. Christopher Kraft  
Director, Flight Operations  
Houston Space Center  
Houston, Texas

Dear Sir:

The APOLLO 11 astronauts quoted the following scripture just before the touchdown on July 24: "When I consider thy heavens, the work of thy fingers, the moon and the stars, which thou hast ordained; what is man that thou art mindful of him?" (Psalm VIII:3-4.)

The successful return of the three astronauts, after they had publicly acknowledged the statement that a Creator created the earth, moon and the stars, seems to show that they were guided and protected by the Creator. American scientists, however, seem reluctant to publicly acknowledge and state that a Creator created the earth, moon and stars. Many scientists think that the earth and moon were formed by accidental means. This complex problem should be resolved now by American science, because of the successful return of the three astronauts.

A lack of such public acknowledgement by American scientists may endanger any future Apollo missions to the moon or the planets, because the success due to the mission may be based on a public statement that a Creator did create the earth, moon and stars. We cannot, of course, prove that Apollo 11 succeeded because the three astronauts acknowledged publicly that a Creator existed and did create... but such acknowledgement by scientists (Astronaut Aldrin has a PH.D in science from the Massachusetts Institute of Technology) may be essential to provide for the success of any future missions.

This is only a theory by a UFO researcher and writer, who happens to have studied the area of space research, religious history and tenets and related historical subjects. Clearly, the time is coming when this question must be resolved: Did a Creator, as the Bible states, create the earth and moon by intelligent design and planning -- or did this come about by accident? Secondly, Armstrong, Aldrin and Collins publicly acknowledge a statement that a Creator created ...their Apollo 11 mission was successful, and this seems to suggest that the success of any future missions will be successful on condition that American science publicly acknowledge that a Creator created the earth, moon and stars...

"In the beginning God created the heaven and the earth." (Genesis 1:1).  
"The sea is his, and he made it: and his hands formed the dry land." (Psalm 95:5).  
"Who hath measured the waters in the hollow of his hand, and meted out heaven with the span, and comprehended the dust of the earth in a measure, and weighed the mountains in scales, and the hills in a balance." (Isaiah 40:12)

\* SENTRY UFO DETECTOR \*

Our UFO detector is receiying great praise from important people. Here are some examples:

"These gentlemen have possibly one of the greatest breakthroughs for people who believe in UFO's. If you believe ... then you must own their invention! It is an advance of modern science to detect anytime a strange object in the atmosphere."

Richard Dawson  
Star of "HOGAN'S HEROS"  
CBS - TV

"I have demonstrated the SENTRY to my friends. They were amazed. I feel it is the best detector in the field. I've seen and read about others, but they're no match for the SENTRY.

Kurt Glemser  
Prominent UFO writer/researcher

The new SENTRY needs no N-S orientating. It has a certified reacting time of 1 millionth of a second. Hermetically sealed components. And is UNCONDITIONALLY GUARANTEED to respond to an approaching magnetic field - everytime - or your money back. Just wave a magnet over the SENTRY and see what happens! Completely assembled and ready to operate. A REAL BARGAIN FOR ONLY \$10.00 ppd.
